ICANN's Work

WHAT DOES ICANN DO?

To reach another person on the Internet you have to type an address into your device—a name or a number. That address must be unique, so computers will know where to find each other. ICANN maintains and administers these unique identifiers across the world. Without ICANN's management of this system, known as the Domain Name System (DNS), we wouldn't have a global, scalable Internet where we can find each other.

Multi-stakeholder Model:

Civil Society & Internet Users, the Private Sector, National & International Organizations, Governments, Research, Academic and Technical Communities are all represented.

Community-Driven Policy

To keep pace with dynamic technologies and rapid innovation, ICANN enables consensus-driven, Multi-stakeholder policy development, with broad representation from the global Internet community.

Who's Involved:

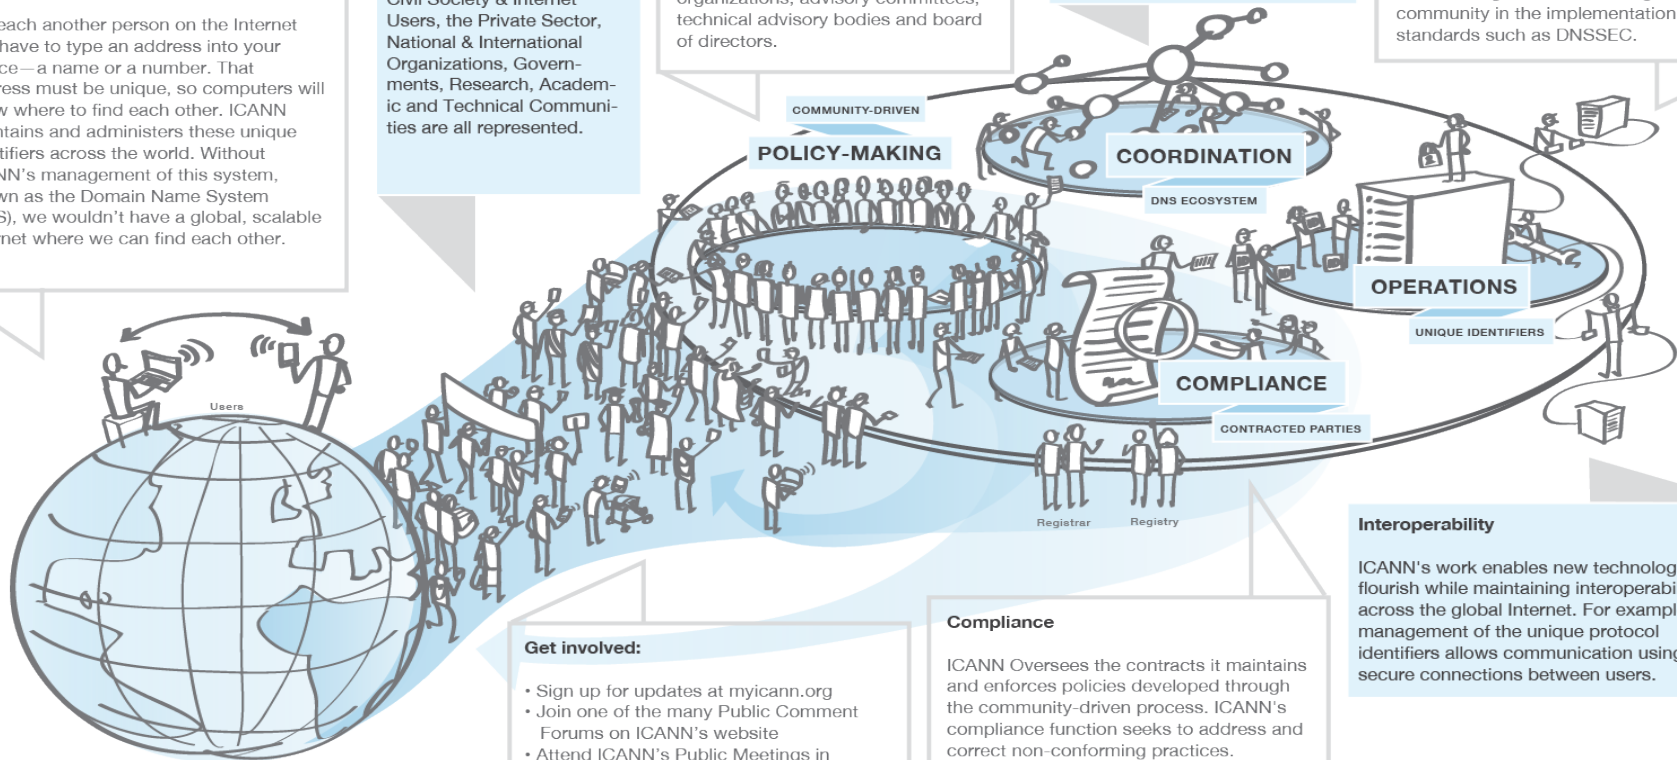

A number of groups: supporting organizations, advisory committees, technical advisory bodies and board of directors.

Competition & Choice

From accrediting over 1000 registrars, to introducing new Top Level Domains (TLDs), ICANN works to expand consumer choice by fostering competition and innovation in the domain name marketplace.

Security & Stability

ICANN supports DNS security through technical training and engagement, coordinating and collaborating with the community in the implementation of standards such as DNSSEC.

Get involved:

- Sign up for updates at myicann.org
- Join one of the many Public Comment Forums on ICANN's website
- Attend ICANN's Public Meetings in person or online to provide input at a Public Forum
- Join one of ICANN's Supporting Organizations or Advisory Committees

Compliance

ICANN Oversees the contracts it maintains and enforces policies developed through the community-driven process. ICANN's compliance function seeks to address and correct non-conforming practices.

Interoperability

ICANN's work enables new technologies to flourish while maintaining interoperability across the global Internet. For example, management of the unique protocol identifiers allows communication using secure connections between users.

SUNDAY

800 Meet and Greet of all Fellows – Hall 1A

1000 – 1630 Newcomer Presentations – Hall 1A

1800 Fellowship Social Event – Hilton Polo Lounge

2000 Food and Sleep!!

**** 0645 ON MONDAY FOR FIRST SESSION!**

MONDAY

- 7:00 At Large Chair / Olivier Crepin-Leblond
- 7:25 Business Constituency Chair / Elisa Cooper
- 7:50 Internet Service Provider Chair / Tony Harris
- 8:30 Welcome Ceremony with CEO Fadi Chehade
- 1730 Daily Download - Hall 4AB
- 1800 AFRALO Showcase – Hall 2AB

MONDAY

10:30 ICANN 5 year Strategic Plan – Hall 6

11:00 - 1700 Tech Day (ccNSO) – Hall 1B

13:00 New gTLD Update – Hall 1A

13:00 Implementation of the Africa Strategy – Hall 6

17:00 DNSSEC for Everybody – Hall 1B
